Microgravity glovebox ready for science on Space Station

The Microgravity Science Glovebox aboard the International Space Station is ready to house experiments. Astronauts worked with the Payload Operations Center at the Marshall Center to ready the glovebox after a circuit breaker tripped in November. The glovebox -- a sealed container with built-in gloves -- is designed to provide an enclosed workspace for experiments. Other experiments aboard the Space Station are on schedule. To find out more about experiments being conducted in space, go to www.msfc.nasa.gov/news.

**Emergency
Warning Test
3 p.m. Thursday.

do not evacuate**

April is Environmental Awareness Month

AIAA meeting will feature Wright Brothers discussion

The American Institute of Aeronautics and Astronautics will hold a dinner meeting April 17, beginning at 5 p.m. at the Radisson Suite Hotel at 6000 South Memorial Parkway in Huntsville. AIAA Fellow William F. Chana will discuss "Understanding the Wright Brothers." Cost is \$20 for adults and \$10 for students. Reservations, due by noon April 15, can be made by contacting Tom Hancock at 722-5555, 961-4200 or tom.hancock@msfc.nasa.gov.
